**Weekend Report from R8**

**Uinta and Ouray Indian Reservation Proposed FIP for Existing Oil and Natural Gas Well Production Facilities** -- In my report last week, I provided an update on our efforts to propose a FIP on the U&O Reservation. On Thursday, the U&O Council passed a resolution calling upon EPA to institute a reservation-specific FIP. This is great news, and should provide some positive momentum on the effort moving forward. Additionally, members of Council will be at HQ on Feb 22 to meet with Janet and members of her team to further discuss the proposed FIP.
